Each section within this catalog is arranged from smallest capacity to largest capacity.  
Matching lid(s) are noted to the right of each product or product section.

## Packaging for every shape, size, and need.

At Berry, we combine our global expertise and resources with our commitment to customer service to find the right packaging solution for you.

- |   |                           |   |                        |
|---|---------------------------|---|------------------------|
|    | Adhesives and Sealants    |    | Ice Melt               |
|    | Bulk Food and Ingredients |    | Lawn Fertilizers       |
|    | Cat Litter                |    | Lubricants and Oil     |
|    | Cleaning Chemicals        |    | Retail and Promotional |
|  | DIY & Building Materials  |  | Pool Chemicals         |
|  | Gypsum                    |  | Paint & Coatings       |

This catalog includes our full line of stock industrial containers and pails with matching lids.

Looking for thin wall containers and packaging for smaller volumes?  
See Berry Global's [Containers and Lids Product Guide](#).

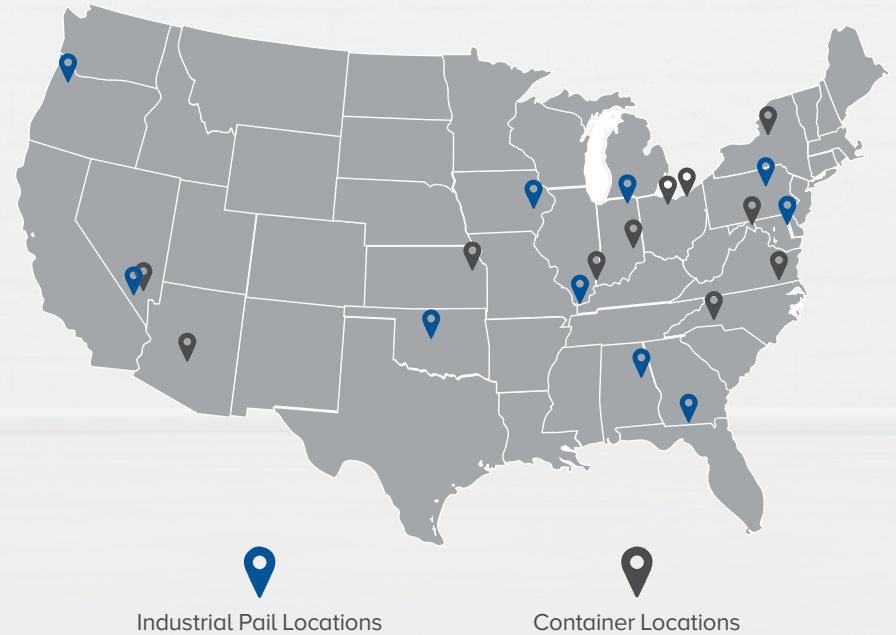

## One size doesn't fit all.

We offer a wide variety of packaging solutions to fit the needs of you and your customers.

- Recyclable Packaging
- Recycled Content
- UN Certified
- Freezer Grade
- Custom Packaging Design
- In-Mold Labeling
- Ergonomic Innovations
- Lightweighting

We have **21 manufacturing plants strategically located in the U.S.** to help serve you more efficiently and provide flexibility between plants to meet your evolving needs, so that you can continue to deliver on your promise to your customers.

Don't see a specific solution you're looking for?  
There's still a good chance we have what you need.

**Contact your Berry sales rep or  
visit [berryglobal.com/contact-us](https://berryglobal.com/contact-us) to learn more.**

## Decoration

Create packaging that stands out. Our full-service creative team will not only design and separate your artwork but also provide high quality printing plates to decorate your products with state-of-the-art technology. We want to help you determine the best, most cost-effective decorating solutions for you.

### Dry Offset

Ideal for line art, illustrations, and simple images.

### In-mold Label

Labeling process enables decoration of round or non-round shapes along with superior photo quality.

### ICONiC™ (IDF)

Provides photographic quality on white, clear, and colored substrates that are round and non-round.

### Heat Transfer Label

Cost-effective solution for crisp photographic images.

# Pry-Off Containers

Our pry-off containers provide a strong seal to keep your products safe.

## Looking for more?

Looking for thin wall containers and packaging for smaller volumes? The **Containers and Lids Product Guide** includes our full stock guide of products to fit your needs.

Talk to your sales rep, scan the QR code, or visit [www.berryglobal.com/en/contact-us](http://www.berryglobal.com/en/contact-us) to learn more.

## Count on our support for a smooth, successful launch.

Our Customer Technical Service (CTS) reps will support you before, during, and after package conversion, free of charge. Reps are located throughout the U.S.—within six hours of most areas—so they can be there in person to:

Perform line auditing three to four months before conversion.

Provide on-site support during initial conversion.

Follow up with additional support within 30–60 days.

Visit your plant regularly to provide ongoing support.

## Frequently Asked Questions

### Q: What products are in stock and ready to ship?

We have the molds to make all catalog products listed in the Industrial Containers and Pails Product Guide. Check with your sales representative for products that are in stock and ready to ship.

### Q: What are minimum order quantities for stock products?

Minimum order quantities for stock products are one pallet of the container, plus the equivalent number of lids.

### Q: What are minimum order quantities for custom printed products?

Minimum order quantities for custom printed products vary based on the size and style of the products and the number of colors in the artwork. For line artwork on smaller containers, minimum orders are 30,000 units. Process art requires at least 100,000 units for smaller containers. For line art on pails, the minimum order quantity is 3,000 units. We can print on quantities less than minimum for an upcharge. Speak to your sales representative about your custom printed order.

### Q: Can I get a product in a custom color?

Yes, we can match to a custom color, but a minimum order quantity is required, depending on the container and color. Speak to your sales representative about specific sizes.

### Q: What type of decoration is available?

We specialize in custom decoration and we offer standard print, Iconic print (high definition, flexographic printing), shrink sleeving, In-Mold Labeling (IML), heat transfer labels, and pressure sensitive labels.

### Q: What are typical production lead times for custom products?

Standard minimum production lead-time is three weeks. Lead times may vary based on special circumstances and will be confirmed at the time of order placement.

### Q: What are standard shipping lead times?

Our standard minimum shipping lead-time for “delivered” terms customers is three business days, meaning that orders must be placed at least three business days in advance of the required loading time. Our standard minimum shipping lead-time for EXW Berry Global, Inc. terms customers is two business days.

### Q: Can I place less than a truckload order?

Yes, we will ship less than truckload (LTL) orders. Make sure you confirm with your customer service representative what costs are involved with LTL shipments.
